Unit Retirement Notification

Dear Alex Rossner,

This email is to acknowledge that on 09 Aug 2017 8:38:29 AM, zukunftswerk eG retired 50 Gold Standard Voluntary Emissions Reductions (VER) credits.

The VER credits were issued by The Gold Standard Foundation following a rigorous carbon offset project registration process. The robust monitoring, reporting and verification process ensures the originating offset project delivers real, permanent and additional emission reductions whilst positively contributing to local and global sustainable development. The issuance and ownership of these Gold Standard VER credits have been tracked in The Gold Standard Environmental Registry using unique serial numbers to prevent double counting or double selling. These VER credits have been retired from the registry PERMANENTLY, no one else can hold or retire these credits. Details about the VER credits are listed below.

Quantity of retired VER credits: 50
VER credit serial numbers: GS1-1-CN-GS4124-3-2012-4125-8751 to 8800
Date of retirement: 09 Aug 2017 8:38:29 AM
Retirement comments: Stilllegung für Josef Gross GmbH, Wien, Anlass: Klimaneutrales Unternehmen 2017 (Dampfbar und Dampfvilla)
Originating carbon offset project: Nanyang Danjiang River Solar Cooker Project Phase I (GS1378 CER to VER conversion)
Project type: Solar Thermal – Heat
Country: China

Visit goldstandard.org for more information about The Gold Standard Foundation or Gold Standard Registry.

Public records of the retired credits can be viewed on the Markit Environmental Registry. Each report contains additional information about the offset project including all the project documentation.

If you have any questions, please contact the Gold Standard Administrator.

Kind regards,

The Gold Standard Registry Team
